

Mr. Powell,

I am sending you this message because a matter of critical magnitude has been brought to my attention. I am a listener of K-Love, a Christian music radio station. I am unable to put into words what this radio station means to my family and I. An important issue affecting the future of K-Love and I is now being considered by the Federal Communications Commission.

It has been brought to my attention that the Federal Communications Commission has introduced a new broadcast service called Low Power FM. While these Low Power FM stations have been in existence for several years, the Federal Communications Commission is now proposing to expand this service in a way that would allow these new Low Power FM stations to take priority over current FM translator services. Many advocates of Low Power FM feel that there is little value in national or regional Services such as K-Love, which are often heard on FM translators. Hundreds of thousands of people listen to K-Love on these FM translators. These translators could be forced off of the air if the proposed rule changes are enacted and Low Power FM is given a priority over FM translator service, which could perhaps leave me without a K-Love signal.

I beg of you not to allow that to happen, as K-Love provides my family and I the opportunity to listen to wholesome, encouraging Christian music, all without commercial interruption. The K-Love signal that I now receive, and hundreds of thousands also receive, has a positive impact on communities all across America. K-Love serves my family and I as residents of the local community here in Casper, Wyoming. K-Love is as much a part of our lives as taking in oxygen. Please do not take our fresh breathe of air from us. We need it. It is a way for my family and I to worship Jesus Christ during our day. Please do not take our worship from us.

Thank you for your time and consideration. Have a nice day.
